

Project proposal Olivia Hendrickx Research Fund Clinical PhD 2019

The Olivia Hendrickx Research Fund will provide PhD fellowships for **clinicians associated with a pediatric oncological service**. The projects should aim at the improvement of treatment and care of pediatric cancers. The translation of scientific knowledge to clinical practice is the primary aim. The Olivia Hendrickx Research Fund will support both part-time clinical PhD projects and full time clinical PhD projects. The practical research can also be performed in an university laboratory.

Dutch title

Including a Dutch summary in layman's terms

Max. ½ page

State of the art

Max. 1 page

Describe the objectives of the research

Describe the envisaged research and the research hypothesis. How does it fit within the mission of the Olivia Fund? What impact could it have, whether and how can it contribute to the improvement of treatment and care of pediatric cancer patients.

Max. 2 pages + references
