

BCCM training

New developments in gene and plasmid technology

*Organizers: Prof. Rudi Beyaert, Martine Vanhoucke, Wouter De Schampelaire
(BCCM/LMBP, Dept. Biomedical Molecular Biology, Ghent University)*

Scientific talks on:

"Plasmids for expression of recombinant proteins"

"Lentiviral gene delivery: a versatile and powerful tool in biomedical research"

"Genome editing: CRISPR/CAS and other concepts"

"Plasmids for in vivo (mouse) gene targeting"

"Genetic expression as a powerful tool for imaging"

€ 60 pp (non-profit) / €150 pp (profit), lunch included
