

After a successful first edition in 2024, we are thrilled to announce the **second European Symposium and Workshop on digital PCR, EUDIP2025 in Gent (venue: Zebrastraat Gent, 18-21 November 2025)**. Prepare yourself for a 2-day meeting and optional 2-day specialist course to hear and learn from the international experts, key opinion leaders and industry partners and explore the possibilities for your research with this exciting technology.

If you want to share your interesting research by making use of digital PCR, please submit your abstract and take the spotlights to present your work! Abstract submission is open for oral presentations until 15<sup>th</sup> of September and poster presentations until 15<sup>th</sup> of October.

More information on our website and link to registration, do not miss out on your spot as registrations are already coming in: <https://digpcr.ugent.be/EUDIP2025/> Early bird registration until 1<sup>st</sup> of October!

A limited number of seats are available for free for PhD students whom are registered at a Flemish Doctoral School, please fill out the application form template you can find on the website.

Organized by the DIGPCR Center at Ghent University (<https://digpcr.ugent.be>).
