

CRIG seminars present:

Dr. Steffen Fuchs

Exploring dysregulated RNA
in pediatric cancer

Dr. Steffen Fuchs is a pediatrician, clinician scientist, and junior principal investigator at Charité University Hospital (Berlin, Germany) who studies the role of RNA regulation in biology and therapy resistance of pediatric tumors with the aim to translate the knowledge to future RNA-based therapies and biomarkers.

Friday November 22nd, 12h

UZ campus, The Core (entrance 37b),
Room 0.8 - Together
