

Meet the PhD Jury

Multiple Myeloma & the bone marrow microenvironment – sEVs
and *in vivo* modeling

**VIB-UGent Center for Medical
Biotechnology, Seminar Room L5**

**Friday September 26
14:00-16:00**

FSVM II Research building
Technologiepark-Zwijnaarde 75
9052 Gent
<https://cmb.sites.vib.be/en/contact>

Program

14:00-14:50

Dr. Richard Groen (Department of Hematology, Amsterdam UMC)

*In vivo modeling of the human hematopoietic niche to reflect bone marrow
microenvironment interactions in hematological malignancies*

14:50-15:40

Prof. Eline Menu (Translational Oncology Research Center, VUB)

*Small extracellular vesicles (sEV) reshape the tumor
microenvironment in multiple myeloma*
