

Can natural tissue remodelling drive breast cancer initiation?

Tuesday 16 September 2025 - 11:00 am (host: Prof. R. Dmitriev, Tissue Engineering and Biomaterials Group)

Lokaal 0.8 – Together, The Core, Campus UZ Gent

Dr. Colinda Scheele
Assistant Professor, Group Leader
Laboratory of Intravital Imaging &
Dynamics of Tumour progression
VIB-KU Leuven Center for Cancer
Biology

Group of Dr. Scheele studies **dynamics of tumor progression** at multiple scales ranging from the molecular level to the organ level. Their goal is **to understand how healthy tissue architecture is involved in this dynamic process of tumorigenic transformation.**
