

# Transform Your Protein Research with Platinum Pro — Next Gen Protein Sequencer (NGPS™).

## JOIN OUR SEMINAR

*On the invitation of  
Filip Van Nieuwerburgh*

**Date:** Tuesday January 13<sup>th</sup>, 2026

**Time:** 11:00 – noon

**Location:** Apotheek Conference Room

Faculty of Pharmaceutical Sciences  
Ottergemsesteenweg 460, Gent  
Blok B

**REGISTER  
HERE**

NGPS on Platinum Pro enables you to:

**Complete protein identification** prior to additional experiments

**Identify unknown bands** from your gels

**Characterize your biomarker** of interest with deeper insights

**Identify potential contaminants** from protein production

**Verify that your antibody** is successfully isolating the target protein

**Read protein barcodes** to test vector/cargo in multiplex *in vivo*

**Jordan Moore**
