

## the immune contexture of lung cancer: focus on tertiary lymphoid structures

**Prof. Marie-Caroline Dieu-Nosjean**  
Laboratory "Cancer, Immune control and Escape"  
UMRS 1138 INSERM  
Cordeliers Research Centre  
Sorbonne University, UMR 1138  
Paris, FR

### where

**MRB2 - Seminar Room (ground floor)**  
Campus UZ Gent Ingang 38  
C. Heymanslaan 10  
9000 Gent

### when

**Friday December 21st 15:00**

**ION-Ghent** together with the **Department of Pulmonary Medicine** cordially invite you to hear Prof. Dieu-Nosjean share her work on the immunological landscape in lung cancer, dissecting the impact of dendritic cells, T-cells and B-cells on the biology and prognosis of this disease.

You are also kindly invited to the public PhD defense of Elisabeth Brabants the same afternoon in Aud C (UZ Gent Ingang 68) at 17:00
